Customer Reviews

It was legitimately just a copy and paste of a two page article online but in book form. There were spelling errors, no diagrams, and it's stuff that you could find out online if you spent ten minutes reading about it. Foreskin restoring though is a really important practice to a lot of men so I am glad that this doctor is trying to help.

I bought it as a gag gift. There are no citations. The author doesn't even have a bio.

Terrible, unscientific and unintentionally just plain dumb. This slim volume was bought as a gag gift for one who mourns his long-lost foreskin. It works neither as a self-help guide nor a work of humor. I should have bought him a hoodie.
