Play Better Golf - With A Mix Of Delta Binaural Isochronic Tones: Three-in-One Legendary, Complete Hypnotherapy Session

Synopsis

Play Better Golf with Delta, Binaural, and Isochronic Background Music Tones: To some people, playing golf seems to come naturally, whilst others seem doomed to failure no matter how much they practice. Being able to play golf like a professional has as much to do with concentration and confidence as pure skill, and is often a case of mind over matter. This famous three-in-one (rapport building, self-hypnosis training, and hypnotherapy) self-hypnosis recording will help you to think like a professional golfer and give you the confidence to make every stroke count. Now, start experiencing a one-to-one complete real hypnosis session with this three-in-one (rapport building, self-hypnosis training, and hypnotherapy) self-hypnosis recording. It could be all you need to get you started playing golf like a pro. Your golf game is part skill and part psyche and that is just one reason why hypnosis is so effective in helping you improve your game. If you are not up to par in other areas of your life, your game is impacted, too. Hypnosis helps you relax and come to grips with other problems so you can have more focus for your game. Hypnosis is a game strategy that works. When you utilize hypnotic methods you are able to sort and organize thoughts, reduce stress, and overcome self-defeating habits. Hypnosis is performed in a setting where total relaxation is possible in order to get the best results from each session. Much of the way hypnosis works to improve your golf game, or any other area that needs improvement, is to create a vision of you acting in a way that brings about change. Although hypnosis cannot change your skill level without you putting the effort into the physical part of practicing, it can change your mindset about your abilities and give you greater confidence. Often a lack of confidence is the only obstacle to achieving success. Play Better Golf with Delta, Binaural, and Isochronic Background Music Tones is a powerful brainwave meditation program - a mix of three tones - that acts as a gym for your brain, strengthening and improving your mental capacity. It helps you release stress, boost your brain power, skyrocket your mood and energy levels and so much more. Boost your mental capacity; improve your memory and creativity. It increases focus and brain power.... It uses the power of brainwaves to change your state of mind - bringing about true peak performance in a matter of days. This effective speaking self-hypnosis recording will help you to get past your negative thoughts. It will teach you to be confident and charismatic while you are speaking. The script was written and narrated by Randy Charach, US-based Canadian celebrity public speaker, hypnotist, and infopreneur. Randy Charach's clients include many famous people, like John Travolta, Tony Curtis, and Sean Penn to name just a few, as well as hundreds of others. As a public speaker, he has addressed audience at companies like Microsoft, AT&T, CocaCola, Disney, IBM and Xerox and many, many other satisfied clients.
