Developing Person Through Childhood & Adolescence With Updates On DSM-5

Synopsis

Edition after edition, Kathleen Berger's acclaimed bestseller, *The Developing Person Through Childhood and Adolescence*, re-establishes itself as the ideal chronologically organized textbook on child development. Exceptionally current, with a broad cultural perspective, the new edition is unmatched. It connects an evolving field shaped by fascinating new research and an evolving classroom shaped by powerful new media. But under the new findings and new media tools, the text's deepest connection with students comes from the captivating, compassionate, authorial voice of Kathleen Berger, which makes the core concepts of developmental psychology clear, compelling, and relevant to the full range of students taking the course. **DSM 5 Updates Available for Fall 2014 classes**, this update version features new content from Kathleen Berger in response to the release of the DSM-5. This new content is integrated into the text without changing pagination or the structure of the chapters. A special DSM 5 Supplement by Berger is available for Fall 2013 and Spring and Summer 2014 courses. Customer Reviews

I really like this book. I'm having to read it for child growth and development and it's so easy to read. Most textbooks are boring and hard to understand but this has basic vocabulary for non psych majors. It also has lots of vignettes and it puts vocabulary definitions in the margins rather than looking in the back of the the book. Loving it

I work in a Psychology program at a University and this book looks like it was thrown together at the last minute. The materials aren't organized well, and the testing materials that come with the "bonus" materials have tons of typos and glitches. We no longer use this book in our Child Psychology class.

It is very informative, and easy to understand. I am enjoying it

I loved this textbook. I also was extremely happy with the condition it arrived in as it was a rental for college. Thank you!

grammatical errors, contradicting information, biased view of family choices such as home births, homeschooling, etc.

is exactly the book i needed for school and was cheaper than my school

Will be great for class. Good condition Thanks
