Customer Reviews

After I travelled to Greece a few months ago, I have totally been into the Mediterranean Diet. It not only has amazing health benefits (that can make you live longer), but it tastes delicious today. This ebook is great because it specifies just breakfast recipes as opposed to everything. I am hoping this author creates a lunch one too - because the 2 breakfast recipes I tried were amazing!

As a professional nutrition counselor, I highly recommend the Mediterranean Diet for overall health and smart nutrition. Breakfast is often a challenge for clients, so I am pleased to suggest this book for some great, healthy breakfast ideas.-Dan DeFigio, author of The Two Week Transformation and Beating Sugar Addiction For Dummies

This is the second Mediterranean Diet cookbook I've read by this author and love them both! I find it's tough to get creative with breakfast and this recipe book has re-inspired me! Can't wait to try the Breakfast Couscous! YUMMY! Like the way this book flows start to finish with take action information to better your health. Buy it and let the author know what you think!

This is my first Mediterranean Diet cookbook I've read. I am glad to have found this one. I am eager to try out all the delicious recipes. The book flows nicely from start to finish. It also adds valuable health tips throughout which makes it not only a cookbook but also a health book. Great job. highly recommended.

Breakfast is my most important favorite meal of the day. This book I grabbed because of the

awesome reviews and I was not disappointed! This diet is so easy to transition to from a standard american diet and after just 5 days I already see results in far as weight loss. this book is very well written, I highly recommend it!

What is the Mediterranean diet? If you ever watch Inspector Moltanbano, the Sicilian detective you will see that fish, seafood, white meats, pasta, fresh fruit and veg and home-cooking are fundamental to the Italian lifestyle and the TV show as a matter of fact. The Mediterranean Diet is not complicated - the beauty is in how simple and flavourful it is. What it is NOT is fast food, nasty microwaved faye, burgers, hot dogs and beer. Dairy and wine are fine, but the emphasis is on moderation. Book contains some lovely eggy variations for breakfast, as well as couscous and hummus ideas to get your day going. I notice that many of these are also PALEO or Paleo adaptable. The Cherry, Almond and Baked Apple is a sensational idea for brekkie - great for vegans as well. I will definitely be having the strawberry waffles and I think the Brie and Bacon Omelette will do me for lunch easily. Each recipe lists the calorie, carb, fat and protein content. Although it is called Breakfast recipes; I would think that many of these are ideal as snacks (ie the scones and pancakes), lunches or even for light dinners (ie salmon, tuna and turkey recipes). Wonderful combining of those Mediterranean essentials ie feta, olives, peppers, basil, artichokes, tomatoes etc. Easy recipes, easily assessable ingredients - GREAT COOKBOOK. I notice the author mentioned Kosher salt and so I assume recipes are Kosher as well.

I love the Mediterranean Diet so I'm glad I found this book. "Mediterranean Cookbook" is loaded with delicious, healthy, and creative recipes you and your family will love. I really like the toasted oatmeal. Thanks!
