The Gay Kama Sutra

Synopsis

This lavishly illustrated gift book is the first Kama Sutra for gay readers--and a celebration of the East's ancient tradition of spiritual sexuality. Each chapter is based on different lessons from the Kama Sutra, with sexual wisdom in a contemporary gay context. 100 full-color and b&w illustrations. --This text refers to an alternate Hardcover edition.

Customer Reviews

The Kama Sutra has long been seen as a book of heterosexual erotic techniques and information about straight sex. In the Gay Kama Sutra Colin Spencer successfully transforms a text of erotic instruction and social etiquette of aristocratic young men of nearly 2000 years ago into a modern celebration of being gay in the twentieth century western world. The Gay Kama Sutra discusses not only explicit techniques and activities but also the social and spiritual aspects of being a gay man in modern society. Love, politics, building a relationship, history, and self-image are discussed with the same positive affirmation as the book's frank discussion of sex and the erotic. Gay sexuality is not simply about sex but also about our gender identity, our community and our culture's relationship to the larger society around us. Sexuality, it shows, is about joyful living even in the face of discrimination and AIDS. The book is illustrated with beautiful drawings illustrating the sexual acts and techniques being discussed as well as gay positive photographs and works of art. Men of all ages, backgrounds and body types are presented showing that everyone is beautiful, handsome, sensual, and loving.

After going through the various stretching, pubic conditioning, and sexual endurance exercises described in this book, my boyfriend could not believe the positions I was able to accomplish! This book is fabulous! This book was the key I needed to unlock my latent sexual powers, and it was also the spark needed to ignite Raul's and my sexual relationship. I came out of the closet only a short time ago, and "The Gay Kama Sutra," with its soothing and confident tone, gave me the courage I needed to enjoy my lifestyle and its fiery sexuality. Although this book did have a plethora of pleasing positions (my, what an alliteration!), it was a bit lacking in the "Advanced" category. But if you are enticed by positional names such as the "Shanghai Clam" and the "Reverse Butterfly," I strongly encourage you to purchase this book.

Colin Spencer has compiled an Eastern JOY OF GAY SEX that is as illuminating as it is compelling. Especially provocative and enjoyable are the pictures and illustrations that embrace the succinct and informative text. Both a manual and a history, Spencer's book is a positive romp through all aspects of gay sex and is an absolutely fulfilling delight - just as the title suggests. A bibliography and index are included. The abundant illustrations range from modern photographs to Jean Delville's erotic painting "The School of Plato."

Okay, I will admit ~ I wanted more pictures. When one thinks of the Kama Sutra, one thinks of a variety of different positions in which to make love. This book briefly describes sixteen positions, several of which are just variations on earlier positions. In that section of the text, there are only a handful of drawings, which makes it hard to visualize some of the more complicated positions. The remainder of the book speaks to homosexual life in broad, romantic terms. I found the author's style a little cheesy at times, and wondered how much of it was due to his mimicking the original Kama Sutra prose and how much came from his own grandiose ideals of gay love. This book covers every aspect of gay love, from safe sex to love-making positions, from coming out to sexual games, from recognizing someone in love to acquiring a lover. Some mention is made of homosexuality throughout history, which was interesting to read, but overall the focus was on contemporary gay men in what I can only describe as an idealized setting. I could see this book being very helpful to a young man or teenager dealing with his own budding sexuality. But for adult gay men, unless they are very closeted or only now discovering their homosexuality, this book is probably not the sexual guide they're looking for to spice up their relationship.

I bought this for a gay friend of mine, and he absolutely loved it. I stopped to read it with him, and I

thought it was pretty insightful. Some of the stuff, I agree, is a little common sense, but it's presented quite well. It features some homosexual art and illustrations, and the way it speaks sounds caring and it's just lovely, I think. People expect the Kama Sutra to be sexually explicit material full of positions and stuff, but it's supposed to teach how to make love, not just sex. This book does a good job of it.

I am an older man who has experienced erectile difficulties for many years. This book has taught me the secrets of how to please my men. The illustrations were scintillating!

When I bought it I thought it had a dense content about homosexual history as well as the practices during the sexual intercourse. It's good and interesting but it lacks of information.
