Perhaps this rating is a result of unfair expectations. I have been a psychologist for nearly 20 years, and I feel this book provides a relatively cursory understanding of the WJ-IV Achievement. Much of the presented information can be found in the examiner's manual, and the interpretive sections offer little in the way of new insight. I use both the Wechsler and the Woodcock-Johnson, practically interchangeably. For the WISC-IV (Wechsler for WJ, intelligence for achievement, apples and oranges, I know), I used both the WISC-IV Clinical Use and Interpretation and the Essentials of WISC-IV Assessment. I might find more value in this items when I discover a fair counterpart to the Essentials of WJ IV. I don't wish to discourage others from this resource but, for me, it was too light on substance. If you have access to the Examiner's Manual, then this book offer just too little for the buck.

This book is a nice overview of the WJ IV ACH test. It contains the same information as the examiner's manual, but in a more user-friendly way. There are parts that are more detailed than the examiner's manual, such as explaining certain scores and theories in more detail. I did find a few errors (the table that shows which calculation items are in each category is incorrect for Form A). If you are new to this assessment this would be a great manual. However, if you use the WISC cognitive assessment instead of the WJ COG this will be less useful as much of the information in this manual is about comparing the WJ ACH with the other WJ assessments.

Bible for school psychologists!! Well-organized with so much helpful information.

I bought this book because I never worked with the WJ and wanted to understand how to interpret the results of ACH and a synthesis of ACH and Cognitive . There is no examples in the book to show such comparison. there are 3 examples, all three compare the results of WJ test of oral language and WJ test of achievement. very disappointed! it is a waste of time and money

It is an Essentials book, what can say, they are all excellent
