Differentiated Lessons & Assessments: Social Studies Grd 6

Synopsis

Practical strategies, activities, and assessments help teachers differentiate lessons to meet the individual needs, styles, and abilities of students. Each unit of study includes key concepts, discussion topics, vocabulary, and assessments in addition to a wide range of activities for visual, logical, verbal, musical, and kinesthetic learners. Helpful extras include generic strategies and activities for differentiating lessons and McREL content standards.

Customer Reviews

Overall I was pretty disappointed, I had hoped to find more 'ready to use' items/sections/pages but this book fell a little flat for me. It is well written but was nothing something I could easily adapt and use in my classroom

Mint Condition and excellent resources! These lesson align with the Essential Standards perfectly. It makes lesson planning easy and testing even easier. Each lesson has 6 different types of tests you can give (or a combination of all of them like I do for some classes) and several extension activities for the AIG students that are really pretty challenging. My whole grade level (15 teachers) at my school is now using this! And I just ordered the Science one to go with it!

The middle school I work at has no books so I ordered this as a new teacher to help me out! I am about to order one for my colleague because he loved it too!

The book has a lot of great ideas. Some of the projects are repetitive, but overall a great resource. The book also has great summaries of different ancient societies. If you are teaching this subject, this book is highly recommended.

Love this and use it weekly in my class. It helps to reinforce concepts and give a variety to the different levels of learning.
