Customer Reviews

I'm so glad I bought this book. I only wish I would have sooner. The book itself is a beautiful bound timeline that you can use. Then the c.d. is for you to print out the timelines . I'm printing out the time lines having my kids fill out, first. Then I will add to the master book as a record for them to have forever. Every homeschooling mom or dad should have this book!!!!

We love this book! It is laid out nice, a perfect size and feels good. Perfect for doing our timeline studies. Enough space to fit lots of things in.
