Flight Of Passage: A Memoir

Synopsis

Writer Rinker Buck looks back more than 30 years to a summer when he and his brother, at ages 15 and 17 respectively, became the youngest duo to fly across America, from New Jersey to California. Having grown up in an aviation family, the two boys bought an old Piper Cub, restored it themselves, and set out on the grand journey. Buck is a great storyteller, and once you get airborne with the boys you find yourself absorbed in a story of adventure and family drama. *Flight of Passage* is also an affecting look back to the summer of 1966, when the times seemed much less cynical and adventures much more enjoyable.

Flight of Passage is an amazing book. I picked it up in 1998 when I saw the cover picture of a Piper Cub. I had flown a bunch of "orientation flights" in a Cub when I was a teenager in Civil Air Patrol in the late sixties. Although it was not official flight instruction, cadets were allowed to do everything but land the airplane. I learned a lot and loved every minute of it - flying low and slow with the door open, learning the basic air work, even the smell of the engine oil on a hot summer day. I wanted to be a pilot, but college, music, work, and marriage led me on a few different paths until my late forties, when I finally started taking flight lessons. Events at the time were making it difficult to keep the lessons going, and reading this book inspired me to keep at it even if I had to take a few breaks from the lessons. The teenage Buck brothers did a lot more with their Cub than I ever did, but the book sure brought back the memories and the romance of flying. Rinker Buck creates a vivid picture

of the life and times of his interesting family and of the late 1960's, in addition to writing one of the best "you are there" flying adventures I have ever read. Highly recommended even if you are not a big fan of flying books - it's a really good read. But for me, the book had an even bigger role to play. I happened to meet Kern Buck at a Jiffy-Lube in Massachusetts in 1999. I overheard his name and asked him if he was related to the "Flight of Passage" boys, and he said he was Rinker Buck's brother, the pilot in the book! We talked for a while about flying, and it turns out that he had just updated his flight instructor certification after a break of a few years (he is an attorney now, working in the Boston area).
