Customer Reviews

All the ideas in here were inventive, original, and fun. It's nothing too challenging or crazy, but stuff that any couple would enjoy. If you're skimming this you're probably already interested, so get it!

There are some fun ideas in here but a lot of the games feel vaguely like repeats of each other and the book's only idea of danger seems to be letting other people see you have sex. It'd be nice if there were some other dangers acknowledged in here because it feels uncharmingly tame.

Just skimmed through, haven't tried anything quite yet but it looks like a lot of fun!! No awkward cosmo crap, looks like stuff people would actually have fun doing.

This is the worst content I've ever seen on my Kindle. It isn't sex games, it is just a list of mildly sexy thoughts. I think it was put together by a person who has never had sex or played sex games.

This is obviously written by someone with tenderness and skill in the bedroom. These are not cheesy "drinking games" clumsily re-imagined for intimate encounters. Rather, this is a collection of genuinely fun and challenging sensual games to play with your lover! This is written with a light predilection for hetero couples, but any of these activities could be easily adapted for same-sex couples, poly groups, etc. The author avoids coarse language, so this would be entirely appropriate as a gift for a lover, so as to spark a few ideas. Highly recommended!

An easy read. Some new ideas that I intend to try. Some of them just aren't for everybody. There is a lot of repetition between the games and mini-challenges. Makes for a nice bucket list though.

It's ok and a fun little read. I got it on a free download but I wouldn't pay more than \$2 for it. Some of it's creative but a bit of it's repetitive. I wish they'd varied it a bit more.

Really amazing! A step forward into a modern Kama Sutra. Well Written, and simple to follow. Will continue to have a lot of fun with my SO with this book. Thank you, so much!
