Read this two book combo and cancel the gym membership. These two exercise books are simply

awesome and a combo at a bargain price. Take control of your health and read this highly recommended combo.

I really liked this book because the exercises are effective but low impact. You don't have to worry about running around or doing a lot of strain on your joints. The rebound (mini trampoline) part is actually enjoyable! Good exercises that you can fit in to your lifestyle.

I loved this book. I've been wasting my exercise time on cardio and now I know better. The two forms of exercise in this two book combo make so much sense. Check it out at a bargain price for two books. Very highly recommended

I always knew rebounding was a great thing to do. After reading this well formatted and informative book, I now know that rebounding is an AWESOME thing to do. Everyone should be rebounding and Highly Recommended
