## Customer Reviews

These daily activities have a very similar form to the workbooks of other grades. Because of this I am able to use them as differentiated warm-ups so that my below-level students are still getting work with similar skills during the first few minutes of class and my students won't be sensitive to the different material. Some of the skills developed and some of the kinds of questions here are a little out of date and modern students will often have laughable answers to some of them. (For instance,

the answer to any question that asks "What reference source would you look in to find..." is always answered with "The internet" in my class). Still, these are a reasonably valuable, standardized tool.

Love these short passages that are accompanied by teaching points which include both skills and strategies. Passages and follow-up questions are challenging, and just right to use for 3rd grade instruction. This gives me the opportunity to model my thinking on a short piece daily and has become an integral part of my reading program.

These are great! I use them to teach my students strategies and to help them work on their skills. The passages are a little easy, but that's good because they can focus on the skills rather than the passage

I like how it gives reading strategies for each week and a quick little teaching technique for each strategy. I also like how the strategies build off each other as the weeks progress. With that being said, the passages are short and a little easy for 3rd grade. Good to use for homework though.

These books are great. They reinforce the skills that I teach every day in class. I have used these for small group instruction as well.

Excellent homework practice of all the reading skills. The stories are meaningful and interesting to the children.

This book is a great Supplement to any core reading program. The passages are organized by comprehension strategy which makes it super easy to find what you're looking for. I've been doing a lot of close reads with my students and these short passages are perfect for that.

If you like multiple-choice question format after reading, this is an easy daily supplemental reading. If you are starting homeschooling and need help to quick locate different type of reading style look like, this will be a good choice as it has weeks and days for students to follow daily. My 3rd grader like to do it in additional to her regular reading.
