Customer Reviews

Just had a break up. I'm 54. Men tell me I'm stunning. I have no problem getting laid. I have problems keeping a boyfriend and when I have, I've gotten really bored. What gets old for men in a relationship also goes for women. Routine is boring. But I realize I have been doing things wrong. I'm too available. I'm too accommodating. I'm too early to jump in the sack. It's hard for women to say no when they like a guy a lot! But I think you are right. I love your book and I will read it twenty times before I start another relationship. I'll also go pursue my "things" and focus on my self esteem coming from me and not from the opinion of a man. I wish I would have had these tools thirty years ago, but hey...It's never too late!

With great hesitation I decided to purchase the book, but I am glad that I did. This has been an excellent book I have read lately. The information is valuable and straightforward. The book is to the point and written in simple easy to understand language. The best thing about this book is the fact itâ™s a man solution to men. Who could know a man better than another man? This book will give you answers to the question we all have like what is goes on inside a man's mind and how attraction works for him. It talks about how men and women think so differently about dating and will teach you how to avoid the mistakes most women make with men. I learnt how to communicate with my man

and this has helped creating a loving and affectionate relationship for me. I was able to better understand men who are not emotional and how to know if your man is one and if so how to deal with them. The biggest thing I was shocked to learn was things we women do unknowingly that annoy men and hinder intimacy. This book gives an amazing insight into what really attracts men and what really pushes them away. This book has really been life changing for me! I am glad I invested in this book because it has helped me save my relationship which was falling apart. This book made me understand what was making my man drift away from me and also showed me how to win his affection back. Thank you!

I'm getting great results with your books!!! He's chasing me again, and I'm not sure I want him anymore!!!! Thanks!

I thought this book gave great insight into a man's world. Most of its content is common knowledge, but does anyone really take the time to fall back on what we already know? Heck no! Good to know we have this book to remind us to slow down and pay attention.

Every woman, in a relationship or not, should read this book! All of Gregg's advice is 100% accurate and it WORKS! Stop making a man your hobby, take back your power and see how much more your man will appreciate and adore you for it! Giving 5 stars only because won't let me give 6!

This book is a great read for women who have ever been confused by why a man never seems to stick around. The answers are all right here in this book. While it is short, this book is right on point. Gregg does a great job of explaining what we can do, as women, to make sure a man will stay attentive and interested in us. I especially liked the chapter on why it is so important for a woman to have friends of her own, and NOT make her entire social life revolve around her guy. Ladies, it's so important to spend time with your friends. Gregg does a great job of explaining what goes through a man's mind when you are out with your gal pals, and how you can make it work to your advantage to keep a guy interested in you! He also takes the time to give you a no nonsense answer to why men behave the way they do in a relationship. He flat out tells you how to solve the most common relationship woes women have with their men. Make sure though, that if you try these things, you are doing it for the right reasons, and not to just be manipulative and controlling. Otherwise it won't work. Guys don't want that. If you've ever wondered what goes on in a man's head, this book is a great example of how men: think, view women, the world and relationships in general. If you think

your man is getting bored with you, and you want him to pursue you and show interest like he did in the beginning, this is the book that will tell you how to get what you want. If you see a man you think you want, Gregg tells you how to get him to be interested in you. ANY man can be yours, if you play your cards right!

We as females always try to treat a guy like we want them to treat us...this never works because they look at things so differently. We think we are being so good to them but they are bored because the hunt is over...the chase is what they want. All the insights into how men think are. Very interesting and thought provoking. Very informative and I think a lot of women would be doing themselves a favor to read this book

Ladies, take a seat, have a glass of wine, relax, for we about to take an excursion into the mind of the male species. No, this book is not a horror or a thriller, it's the real McCoy, and you'll be thanking your lucky stars that Michaelson has gifted you this free ticket. In Michaelson's book, he insists that you don't have to keep a poker face in order to hold a winning hand. It's all in the cards as he explains in depth how to win a man's heart and get him to commit. It's refreshing to read this sort of advice from a man's point of view, but he provides very insightful factors that you can pass along to family and friends. Whether you want a long-time partner, a soul mate, or a husband for life, this gifted author will educate you exactly what to do (and, what not to do) in order to get your guy to stick like glue. Step by step, easy and flawlessly, he speaks to the reader softly, yet commanding and with conviction as a real man should. He also picks the brains of both men and women, and is on point. It could change your life, for better or worse, and you'll never have to sleep alone again.
