# Love By Design

## Synopsis

Life has a funny way of revealing harsh truths. Cassie Carl believes she has it all. On the cusp of achieving her professional goals and soon to marry the man of her dreams—the handsome, kind and loving Stefan Van Allen—it seems she's found the life every woman dreams of. What else could a girl want? Peyton Kingston is a beautiful, talented interior designer on the rise, whose sole focus is building her business. She loves what she does and has little time or patience for relationships. She's happy with her life. What else could a girl need? When Cassie's wealthy fiancé brings Peyton in to do a renovation on their home before the big engagement party, sparks fly, leaving both Cassie and Peyton to question everything they thought they already had. What happens when the thin veil of perfection becomes riddled with holes? S.W. Andersen's modern day romance takes you on a journey of self-discovery for two women who thought they had it all.

## Customer Reviews

What can I say, I loved it. This is the first book that I've read by S.W. Andersen, but I'll be looking to buy more of her ebooks as soon as I've finished typing this review. The two characters were infinitely lovable, despite their feelings blossoming in a quite unlovable situation. The best friends and other

secondary characters were terrific. The writing and pacing were perfect for a quick, romantic read.\*\*\*SPOILER ALERT\*\*\*There was something else, however, that I needed to comment on that is somewhat of a spoiler. I found it refreshing that Cassie's fiancée remained a genuinely good guy throughout. The fact that the author did not resort to him cheating, belittling, be homophobic, or anything else like that, made the book that much more romantic for me. The story was about two women whose feelings were so strong and attraction so undeniable that in the end nothing was going to keep them apart. What's more romantic than that? I can't wait to read more of S.W. Andersen's work.

There's more to S.W. Andersen's novels than meets the eye. At first glance, what looks to be a simple love story, *Love By Design* is an exceptionally well written journey into self-discovery. The author asks "What more can a girl want?" Clearly not what a girl initially thought, and how many readers won't relate to that? The love story is just the cover of the book and when unwrapped you will find a well paced, wonderful story with great character development and a lot of emotional and psychological depth. If you have never picked up a book written by this author, now is the time to do so. Read *Love By Design*, you will feel Peyton's magnetic attraction to Cassie; you will feel their confusion and you may even cry at the insurmountable odds that they each try to navigate. I guarantee you will definitely become addicted to S.W.'s writing and then you'll want to go back to read the Sarah Sawyer Series.

*Love by design* is a summer easy read. I fell in love with Peyton and Cassie's characters. The story holds your attention through out the book. Most of us have experienced Lust at first sight. Very few get to feel the sheer force of love at first sight. This story is all about that. I felt like a fly on the wall watching this love story of conflict, struggle, fun, friendships, & most of all relentless persistence unfold in front of my eyes. I hope this story provides inspiration to someone who wanted to take a chance on love but could not find the courage to do so. I also admire S.W. Andersen's writing style and how it has evolved with time. Must read. Five stars!

I really enjoyed this book and S.W. Andersen's writing style. This read is very straight forward with little angst, very understand people, blunt best friends, and a whole lot of sweetness. Told from the the views of Payton and Cassie, everything is covered and you get a complete range of emotions and feel for the characters. It's the perfect book to read if you're looking for something to make you happy and smile.

Really a great story! You think you have it all, then realize if your hearts not in it you don't! I enjoyed reading this story and the other books by this author as well. If you like "love wins" type stories you will want to read this one!

This is my third book that I've read by this author and they keep getting better. What a fantastic book. Instant attraction at first sight, two beautiful women struggle with how they feel, how they try not to act on that attraction the how they keep being put into situations that makes their resolve hard to follow through especially as one is engaged and planning her wedding. No plot give away here if you want to know what happens between Peyton and Cassie, then you need to get the book. Enjoy it as it is really a great read.

Girl meets Prince Charming who is a real sweetheart. Girl then meets Princess Charming who rattle her chains ad nauseam for the remaining 3/4's of the book . Seriously, how many ways can you say, you complete me, or, I forgot to breathe, or, nothing else existed. I love romance, I love quirky, humor and some angst, but I think this one went on to long. Gina, Val and Francesca saved the day.

This is the third book I have read from this author. It amazes me one can write a western love story and then follow it up with a modern day romance in NY.
