Customer Reviews

this have some good ideas for talking about and nice activities to use with children - and other ages-- always nice to have more to use - this book stands on itself, so do not waste your time buying the book it goes with - the activities here dont' match up to the book and do not build on the books story - do not recommend the book this goes with ever -

I have been able to use several ideas with my small group in counseling with them over the death of their parent. I am a school counselor at a junior high school and have adapted some of the activities for their age group. I have read the book, but will read it to them towards the end of our group. You can use the activities without using the actual book, Grief is Like a Snowflake.

I am a volunteer at a family grief awareness group and I work with the adults in the group. My co-facilitator and I used some of the activities in the book and it really helped them in their journey.

Some nice activities for children who have experienced a loss.

as expected
