Customer Reviews

This book did not meet my expectations. First of all I searched for a binder which was how it was listed, but it's not a binder and it's not a hardback. The cover is a flimsy paperback. Second, it's smaller than a standard sheet of paper which maybe what some brides are looking for, but not me. Third, the lines on the forms are so small there is no way to get the requisite information on them. Fourth, I wanted a form that would help me choose between vendors and compare/contrast offerings, there are not enough forms and the layouts are not conducive to that. Overall, very disappointing.

So in March, my boyfriend of 4.5 years finally asked the question! How exciting! However, reality

started to sink in the first time we went to look for the stereotypical wedding planner. And WOW, was there selection. I was frightened by the selection and cost of a lot of the planners, and many seemed wayyyy too formal for our needs, or used a lot of complicated information. Then I spotted this little book. I have loved the "everything series of books so far and this has been no exception. It has a ton of information, is spiral bound so it's easy to fold over and write in, and was priced just right. It's also small enough that I can fit it into a large purse so I've been able to drag it all over the place without looking like a bridezilla. There is a nice pocket in the back that works well to tuck pamphlets and cards in until I get home to put in my huge organizer, and I love the pages that remind you to make a copy of for whatever vendors. It does all this with a nice air of humor in the text, which is nice when you start feeling so bogged down. The only downside I had was some of the lists (like guest list and seating arrangement worksheets) didn't have enough (as in, guest list for 100 even though we have 200 guests) but we found just scanning it and printing another copy helped, and we just stapled it to the back of the original page. Overall, I am VERY pleased with this book, it's been a great tool and has even given me a lot of good insight on some DIY ideas and made me think about a lot of questions to ask vendors that I would have never thought to ask before.

This guide was never used, but my have been sitting on a shelf for awhile. This is exactly what my daughter wanted to get a start on the wedding planning. Could not be happier as they are reminding us of things we may overlook.

From etiquette to guest lists to seating charts...this book will definitely help you figure out all the things you need to for your big day. It also addresses a few things that maybe didn't cross your mind. A must-have for the overly organized (like myself) and the disorganized.

I bought it for my best friend who's getting married and she loves it. It came when expected and was in fairly good condition, no writing in it but just a little damage on the back. She's found it very helpful!

Wasn't exactly what I needed I guess. It was as described, so no fault on the seller at all. Very reasonably priced, but did not find the book itself to be necessary.

As someone getting re-married soon, I thought this would be helpful as things have changed since my last wedding....several years ago. This is helping us stay on track and within our budget. :)
