ISBN-10: 0813344476

ISBN-13: 978-0813344478

Product Dimensions: 7 x 1.5 x 10 inches

Shipping Weight: 2.5 pounds (View shipping rates and policies)

Average Customer Review: 4.1 out of 5 stars [See all reviews](#) (11 customer reviews)

Best Sellers Rank: #89,387 in Books (See Top 100 in Books) #97 in [Books > Education & Teaching > Schools & Teaching > Parent Participation](#) #152 in [Books > Education & Teaching > Schools & Teaching > Education Theory > Reform & Policy](#) #558 in [Books > Business & Money > Education & Reference](#)

## Customer Reviews

This is the best book on the market about school, family, and community partnerships for use in teacher education and school administrator training! Based on decades of research, Epstein has pulled together all the pieces necessary to help educators understand the importance of partnerships, the effects of these partnerships on student outcomes, and the necessary components for building comprehensive school, family, and community partnerships in elementary, middle, and high schools, located in urban, suburban, and rural settings. The research-based framework and approaches Epstein discusses will help all educators create positive relationships and productive partnerships with families and communities, linked directly to school improvement goals. One of the strongest parts of the book is the class projects and assignments found at the end of each chapter. My only regret is that this book was not part of my required reading as a student. If increasing numbers of educators have the opportunity to read Epstein's book and then apply what they've learned, our educational system and students will benefit tremendously.

School, Family, and Community Partnerships appears in its second updated edition to offer

educators and researchers a fine key to developing goal-linked programs of school, family and community partnerships. Methods for applying theory and research accompany a historical review and exploration of research on parent involvement. Any college-level education collection needs this!

This book is very useful and focuses on the most-important and most-transformative framework that we can establish and sustain for our schools: partnerships. As a lead author for this field, having this insight from Epstein is critical to making positive change.

Lots of good ideas, research, and references. Text is broken up into mostly short sections with defined focuses for an easy read.

Epstein knows her stuff and is backed by a well-respected institution in her research. I used it for several training sessions with both education administrators and classroom teacher groups.

The kindle style was way to hard to read, the lack of page numbers made reading along and homework assignments impossible
