Excellent, motivating booklet you can read in under an hour. I felt like Ron Swanson was talking to me and the advice is classic and timeless. Author pens the standard to which all men should aspire.

I think purpose is the biggest thing that holds men back from excelling to what they can become. I found this book helpful and encouraging. It has all the necessary steps for you to find yourself as a man and know your roll. A must read for all males. I even recommend it for females, it will help them understand their husband or boyfriend a lot more. This book would be a great gift for any male who values themselves and are looking to achieve higher goals in life.

Awesome practical advice that motivates men to man up. Using anger constructively to motivate change and take control of your life. Controlling the fire...great analogy! Getting out of rut of comfort zone. I highly recommend this book.
