Parental Incarceration And The Family: Psychological And Social Effects Of Imprisonment On Children, Parents, And Caregivers

Synopsis

Winner of the 2014 Outstanding Book Award presented by the Academy of Criminal Justice Sciences—Over 2% of U.S. children under the age of 18—more than 1,700,000 children—have a parent in prison. These children experience very real disadvantages when compared to their peers: they tend to experience lower levels of educational success, social exclusion, and even a higher likelihood of their own future incarceration. Meanwhile, their new caregivers have to adjust to their new responsibilities as their lives change overnight, and the incarcerated parents are cut off from their children's development. *Parental Incarceration and the Family* brings a family perspective to our understanding of what it means to have so many of our nation's parents in prison. Drawing from the field's most recent research and the author's own fieldwork, Joyce Arditti offers an in-depth look at how incarceration affects entire families: offender parents, children, and care-givers. Through the use of exemplars, anecdotes, and reflections, Joyce Arditti puts a human face on the mass of humanity behind bars, as well as those family members who are affected by a parent's imprisonment. In focusing on offenders as parents, a radically different social policy agenda emerges—one that calls for real reform and that responds to the collective vulnerabilities of the incarcerated and their kin.

This book provides a balanced scholarly overview of how parental incarceration impacts families and children. The coverage provides insight regarding the experience of the incarcerated parent, as

well as evidence based recommendations regarding how best to help families that interface with the criminal justice system. A must read for anyone conducting research in this area or out in the field.

I needed this book for my masters thesis and I think it offers a great perspective on the side of incarceration that we normally never see.

It's a great book.

Very good

It makes the prisoner look like the victim and I was looking for a book to help the family member NOT make the family feel sorry for the inmate
