Yoga For Men: A Beginners Guide To Develop Core Strength, Flexibility And Aid Recovery (Yoga For Men, Flexibility Training, Mobility Fitness)

Synopsis

Yoga For Men - A Beginners Guide To Develop Core Strength, Flexibility and Aid Recovery

Would you like to know how you can extend your athletic career, prevent the onset of aging, and learn how to practice deep relaxation? Going to your first yoga class might be a little weird, but what isn't weird the first time you try it? Your first day at a new job was little weird because it was new-you didn't know where things were, you didn't know peoples' names and so on. There was a lot to remember and learn, but you survived, you got connected and got comfortable. Developing a yoga practice isn't really painful, although your poses and routines will be grueling at times. You do have to consider some different things, such as what style of yoga you want to try, which classes you'd like to attend and what poses will compliment you existing athletic regimen. If there's a new sport you're getting into when you roll out your mat for the first time that can complicate things a bit more. The good news is that yoga is the ideal complement to any athletic activity. This book will give you the guidance you need to understand yoga and develop a sound practice that will yield many benefits for the rest of your life. Yoga For Men has been created to help men who've had little or no experience with yoga reach their full potential through simple, effective means. Yoga For Men will help you create a yoga practice that will meet your unique needs. Your yoga mat will become your laboratory of transformation. Yoga For Men will show you how to connect to every muscle in your body and to develop connections between every muscle and muscle group in the same workout. You will learn how to prevent injuries and incorporate your yoga practice into any athletic regimen you are involved in. Yoga For Men will teach you how to be your own teacher as your yoga practice continues to progress and become an integral part of your life. What are you going to learn? Why Should Men Do Yoga? Yoga Breathing? Yoga For Focus? Yoga Exercises? Deep Relaxation and Recovery? Yoga Resources For Beginners and much more! Are you ready to take on one of the most unique challenges of your life? Download your copy of Yoga For Men today to receive all of this information!

Customer Reviews

I love yoga because not only is it a workout for my whole body, but also my breathing, which helps release a lot of stress. Yoga reduced all my bodily tension. It allows me to bring my body back into balance. It really prepares me for each day. The yoga in this book has trimmed my body in a way that the gym never could. I have had moments with health issues and I've felt like yoga, meditating and reading this book actually really helped. Yoga did not just help me with my body, I became fitter from within. It helped me to focus a lot better. Yoga is not just only for women, but also for men. This book is a big help to everyone. It has truly changed my life and I'm sure it will help you too!

When youâ™ve never tried yoga, it can be intimidating, especially if youâ™ve been scoping the jaw-dropping, super bendy, pretzel-like poses your girlfriend practices each morning. This book offered a no-frills, all-body workout that could be incorporated into a workout routine. I was looking for new poses, so I gave this book a try. The book turned out to be very helpful. There were many postures I had never tried before, such as Squat Hold or Cat-Cow. For the ones I did know, this book provided greater detail which helped me gain greater understanding of how to move my body. The sequencing section provides ready-made sequences for quick use. Although billed as a book for yoga practitioners of all ages, I believe this book would work best for someone (man or woman) who

has already done some yoga, but wants to a tougher workout. The poses and sequences are strenuous enough to compete with any other kind of workout you can do.

This book is a great resource. Although this book is addressed to men, woman can utilize it too. This book is detailed and provide information on the benefits of Yoga. This e-book is a must have. It is best for beginners, the athlete trying to improve his/her performance, and just anyone looking to get active in their everyday life.

I've been trying yoga for a while now and it relaxed my body and mind. It is very effective to eliminate stress and regain strenght of your body and mind. I've been reading a lot of yoga books for men and women and it is just the same. The main purpose of doing yoga is to be m ore inclined to your inner self and be more mindful.

I didn't know Karim Abdul Jabbar was a yoga fun!!! For me this guy was always a legend and I'll take his word! I personally think yoga makes your bones, muscles more durable over time that's why this guy managed to play 20 NBA seasons! Other don't even make 5! I had watched a few youtube videos with some poses but this books is short and concise, puts everything into the right place. The pictures are of good quality and that's helpful to understand the poses. I really enjoyed it. It just convinced me that I should be consistent with my yoga. It's definitely worth it! Thanks a lot for great advice, Angelo.

Iâ™ve always wanted to start a yoga course, but I was intimidated by being the only man in a studio full of women! Through the use of these customized poses this beginnerâ™s guide makes yoga possible for everybody. The lessons are clear and very easy to follow, because there are many pictures and simple explanations. I think that for a beginner, it is essential to have some basic knowledge about yoga before practicing it and this book was a great start for me. I hope that I will soon be able to move to the next level.
