Tips On How To Overcome Being Insecure From The Book

Tip 1: The first thing you want to understand about feeling secure is you were created to be exactly who you are. There's no one else like you. You are very special and unique. You possess gifts and talents that make you into the beautiful person you are. When you start feeling like you are not good enough, or as good as someone else, tell yourself that you were made to be exactly who you are.

Tip 2: It's so hard at times to not compare yourself to others. I'm sure you see in other people qualities that you would like to possess. Some things are obtainable and therefore, you can make changes in your life to become the person you would like to be. People always say, don't compare yourself to others. Well, I agree to a certain point, but desiring to be like someone else can compel you to achieve more in life. As an example: When I was in high school there was a very popular guy who had an amazing smile. I liked his smile so much that I actually practiced trying to look like him. It didn't work very well. However, wanting to have a nice smile did compel me to get braces and go to the dentist for regular check ups. Today, I have a really nice smile. There are tens of thousands of ways that you can compare yourself to others. You can use comparisons to your advantage or your

defeat. The best thing that you can do is learn to like who you are and then work on being a better person. One of the key ways to become successful in business is referred to as "modeling." This is where you actually model the behaviors of successful people in order to obtain the same results. There are 50 life-changing lessons for you to learn how to not be insecure from. I don't know what it is about the format of this book-- but it just makes me want to record it as an audio book! I've been perusing for reference material on an upcoming talk show about relationships, insecurity, jealousy and the like, The way the book is set-up, by daily reading and in points, made it an ideal choice. I especially like the outward suggestions for helping with insecurity-- how it's not entirely inwardly-focused. You *can* work to overcome insecurity by being kind and helping others and I like how that point is made. Definitely something I'd recommend to others and hoping the author doesn't mind that I use them as a reference on my show!

Insecurity is an emotional manifestation of fear or embarrassment. Sometimes we all feel a little insecure. I find that for me, it happens most when I start comparing myself to other people. So as a way to prevent insecurity and jealousy, I try not to focus on what other people are doing. What takes a lot of the pressure off, is learning how to love and accept yourself for exactly who you are. Most of the world will tell you everything bad about yourself, your faults and weaknesses. This is because it is easier to tear someone down, instead of build them up. What we have to all learn is how to ignore those voices and have self-confidence in who we are, and know that who we are is good enough. This book will help you learn how to do that. This book has a lot of other great ways to deal with being insecure, like taking care of yourself, doing things you enjoy, and learning to be more assertive in what you want out of life and your relationships.
