

The book was found

# Processes Of Manufacturing

## Synopsis

Designed to provide a comprehensive introduction to the ways in which the form of a material is changed to add to its value. Provides a solid basis of understanding of the manufacturing activities involved in the process of metals, polymers, ceramics, and composites. DLC: Manufacturing processes.

## Book Information

Hardcover: 464 pages

Publisher: Goodheart Wilcox Company (September 1999)

Language: English

ISBN-10: 1566375339

ISBN-13: 978-1566375337

Product Dimensions: 10.5 x 8 x 1 inches

Shipping Weight: 2.9 pounds

Average Customer Review: 4.4 out of 5 stars [See all reviews](#) (9 customer reviews)

Best Sellers Rank: #540,118 in Books (See Top 100 in Books) #314 in [Books > Engineering & Transportation > Engineering > Industrial, Manufacturing & Operational Systems > Manufacturing](#) #3078 in [Books > Textbooks > Engineering](#)

## Customer Reviews

My professor for my Manufacturing Materials and Processes said at the beginning of class, if he had a choice he would've chose a different texbook. I would agree with him. Although the book is very informative and has a lot of material, it presents it in a way that is very boring, laborious, and difficult to read. It might just be the nature of the subject, but reading it is just a pain. I always dread whenever the professor assigns us to read more than 3 chapters at a time. Nevertheless, it stills is very informative. Overall, it is informative but not a great read.

I had this book in a class last year, and wanted a copy for future reference. (The "References Cited" in the back are worth the \$8 I paid for this copy.) The book's condition rates 4 stars, but the seller's accurate description of the book's condition - together with the price - makes this a no-kidding 5-star deal for me.

Online college class utilizes this book as a reference. Good book to have, read, review to pass the college course.

Thanks!

I was impressed by the quality of this used text book .. this is definitely the way to go for me !
