I think this is a nice book for poking fun, but it didn't hold the answers I was seeking to decoding my dreams. This was more like reading a fortune cookie. I do not recommend if you are seriously looking for answers and biblical interpretation of your dreams.

FUN to use! Makes a great gift too. I got it for my mom, she loves it. Just a suggestion though: DON'T share this with anyone you know to be very superstitious or easily paranoid. This dream dictionary is definitely not all sunshine and rainbows!!! Still very entertaining. You won't believe how MUCH is in here... millions of definitions. It really seems like *almost* (but not quite) anything anyone could dream up is in here. Again it's really fun to use, gives you something good to talk about every time you remember anything about your dreams from the night before. :)

This book is really cool. I wake up and look up whatever was in my dream. There are literally thousands of words to choose from. Dream about fish? It's in there. Fire? It's in there. Pretty cool

when I opened this book, I was all set to get some insight into why I dream certain ways and maybe a section which explains what each part of a dream such as teeth falling out, being naked, etc. means. I was shocked to see "predictions" about what would happen in my life, in 2 weeks, or three days, or tomorrow. It totally baffled me. How could the author predict what would happen to thousands of people who read this book and happen to have similar objects, or parts in their dreams? For example, would all of us who dreamed of a baby have a very specific incident happen within a very specific time? Would 10,000 of us only have to wait 2 weeks exactly to become millionaires? Rubish!!!

Good resource however it does not give information on a lot of things that come up in a dream. But still good for some portions of resource. Would recommend along with some other resource form of interpretation.

This is mostly like fortunes, not really dream interpretation. It's still fun though.

This book is very cool! For someone who has incredibly detailed, and vivid dreams, having this book makes it more fun and less annoying to try and figure out what they might mean. Although 90% of the time its just for fun. The only draw back is I wish that the book had more terms, every once in a while, I will be searching for a fairly common word and it's not in the book.

Gave this one to my daughter for her birthday and she carries this thing around, it been very insightful, I give it 2 thumbs up, If I had more thumbs Id flick them up too. FANTASTIC reference
