Customer Reviews

This was bought for a five year old who will be starting kindergarten in the fall. She knows her letters and most letter sounds, but we wanted to give her some additional solid practice with rhyming words, word families and some sight words. Ideally you should have access to a double sided printer before using this, but it is not absolutely required. Instructions for printing and assembling the books (very MINI BOOKS !) are somewhat confusing at first, but they do make cute little book(lets). I would suggest encouraging the child to color each page before assembly. The pages are perforated and numbered. There is a picture to go with each new word, but make sure the child has a good understanding of the initial letter sound before guessing the word. An example is : a picture of a boy...but the word is Jack. Jack ended up with a pack...a pack on his back...that said quack (shows a picture of a duck inside the pack). Another book had a duck in a truck with a buck that got stuck...so these are not words that a child can easily guess at, without a little guidance and

knowledge of letter sounds. But most children will easily catch on and will enjoy the rhyming. The sight words are some of the basic ones like in, the, a, with, etc. I would recommend this to anyone who loves the look on their child's face when they "get it" and enjoys working with them. The mini books are not really designed for a permanent spot on the bookshelf any more than your basic coloring book, but will help the child in building their word recognition. Only rating it 4 stars because of the assembly and lack of durability, otherwise it is a really good set. Price may be a little high for what you actually get.
