Customer Reviews

This book is just one big infomercial, mentioning a specific product (in bold!) after most paragraphs that will "solve" the issue at hand. Just go to www.7yearsyounger.com/shop, they say. Really, how easy. They should give the book for free since it is clearly, sponsored.

Having lots of fun with this book! As expected, I already know some of the tips, but there are many new tips and recommendations in this book that were new to me (and I've spent a lot of years picking up tips on makeup and makeovers, believe me!). This one is much better than the usual "how to look younger" books, and it lives up to the promotional hype!

I was skeptical at first that this was gonna be another useless information guide. However, I am pleased to report that this book offers solid, realistic advice for aging skin. Even better is that it lists products geared towards your specific needs. I have tried a few recommended products and have been happy with the results.

Got the book yesterday. Very prompt. I like it. I like that it suggests brands of products. Makes it much easier to purchase a product that works.

Very simple and informative book..

Facing the world with confidence!
